Hi! I'm Jessica. I'm sure you have heard your parents or grandparents say that old times were better. Am I right? And of course, you think they are wrong. Well, let me tell you that for us, as young people, our present will always be the best. But not everything that our parents or grandparents liked when they were young was bad, boring, or dull. For example, the music. Have you ever heard about Michael Jackson, Elvis Presly or Selena? Their music is great, their moves were awesome! Talking about moves, have you ever seen videos of people dancing swing? Wow! What a rhythm! I would love to learn how to dance like that. In the past, there were lots of great things to see, hear, watch, and dance. So, try to be open and explore music, TV programs and movies from the past.

Before going to sleep, I am going to text every single of my friends. I hope Darien replies to my texts because he is always very busy, and he doesn't have time to text or check his social media. Horoscopes

Hi. Today I'm gonna tell you what the future will bring you. Ready? Well...

First, we have CAPRICORN. You are very lucky. You will find the love of your life. You must work hard so that that beautiful relationship goes on.

AQUARIUS, you could have better results in your school grades if you paid more attention to your teachers. If you don't improve your performance, you may not pass the semester.

PISCES. This could be the best time of your life. You will have money and love. Just be careful with your health. Eat better and exercise more.

ARIES. Money! Money! Money will not be a problem. The money you have saved for the last months will be enough to cover all your expenses. You just have to be careful with those friends who may make you spend more than planned.

TAURUS. You must pay more attention. You should not trust everyone around you. There are people who feel envy, and they may do things to betray you.

GEMINI. You are the most intelligent in the entire zodiac. That means that you don't need to be lucky when all your decisions are always right. You will have everything you wish, love, health, success...you name it, and the stars will give it to you.

My CANCER friends should be more careful with their health. Try not to eat that much junk food because it can bring you problems with your health. Avoid drinking alcohol and smoking.

LEO. You should stop being so idealistic, instead, you should start to work on your plans and take things more seriously. You are very impulsive and that doesn't let you make the best decisions.

For my Virgo, Libra, Scorpio, and Sagittarius friends. Tomorrow I will tell you what the future holds for you. Thank you for listening and may the force of love be with you.
